

# ***ACRATECH***

## **PROFESSIONAL PHOTOGRAPHIC AND IMAGING PRODUCTS**

The Acratech Panoramic Head is designed for multi-row stitched panoramic images. It has a large degree scale on the tilt axis and a large degree scale on the pan with an adjustable degree pointer. The design is based on our Long Lens Head so you can also use it with your 600 F4.0

## ***PANORAMIC HEAD***

- **Weighs less than 1 lb (.45kg) with quick release clamp.**
- **Precision laser etched degree markings on both the pan and the tilt axis**
- **Provides easy, smooth balance for long lenses.**
