## Swift Clamp

The straps that come with most cameras are uncomfortable, slower and more difficult to use than the new “quick” type sling straps. Until now there was no fast way to connect your camera with its Arca-Swiss style quick release plate to these “quick” sling straps. Our new Swift Clamp makes it easy to quickly attach your camera with its Arca-Swiss style quick release plate to your Black Rapid sling strap.

Camera and strap not included

- **Locking lever keeps your camera secure**
- **Fits all Arca-Swiss compatible QR plates**
- **Precision C.N.C. machined**
- **Solid precision feel**
- **Beautiful satin black anodized finish**
- **Long lasting stainless steel hardware**
- **Made in the U.S.A.**
- **10 year warranty**
